Description

Used Geneglance F2000 (x2) ice plant

Well maintained Geneglance F2000 (x2) complete flake ice plant on R717 (Ammonia) installed in two containers. This flake ice plant was used to provide a ski slope with artificial snow, but can be used for all kinds of purposes.

This flake ice set comes with a compressor skid that has 3 Bitzer OSNA8571-K screw compressors that are each driven by their own electric motor, 2 oil separators, plate heat exchanger as oil cooler, Hermetic NH3 pump and a NH3 separator. Further the set comes with an evaporative condenser on top of the containers, 2 screw conveyers, blower and ofcourse 2 Geneglance F2000 flake ice makers. For more information on how the

installation is set up, see the attached PDF file.

Each Geneglance F2000 unit makes between 40.000 and 50.000 kg/24h of flake ice out of fresh water. Please feel free to contact us for more information!

Running hours between 15.000 and 16.000.

*Why choose for HOSBV? We're not only the largest used refrigeration specialist in Europe, but also, we deliver all equipment including an extensive test, warranty and industrial cleaning. *If requested we are happy to arrange your logistics.
