Description

Used Aggreko WCC800 MK2

Used Aggreko WCC800 MK2 air-cooled chiller on R134A. Complete with compressors, condenser with 10 fans, Onda shell and tube evaporator and a control cabinet with a Carel pGD² controller.

*All components of this used chiller will be tested on adequate performance, leak free condition (condensing blocks), compressors, fans, control panel, and

so forth). Choosing HOSBV means buying with warranty. We perform an industrial cleaning. *If requested we are happy to arrange your shipment.
