

ABB CLMD-400/50-40-L070-SG-C-X

Specifications

Marque	ABB
Type	CLMD-400/50-40-L070-S G-C-X
Remarks	510x400x1230 mm (LxWxH)
Stock	2

Description

Used ABB CLMD-400/50-40-L070-SG-C-X

Used ABB CLMD-400/50-40-L070-SG-C-X reactor and contactor cabinet, designed for power factor correction in industrial applications. Rated at 40 kvar, 400V, and 50Hz, it's suitable for systems requiring reactive power compensation.

Note: This is not a complete power factor correction system and does not include a controller.
