Description

Used Evapco LSCE 281

Used Evapco LSCE 281 evaporating condenser on R717 (Ammonia). Equipped with 2 centrifugal fans, driven by a Weg 180L-04 electric motor 50/60 Hz - 22,0 kW - 1470/1775 RPM. This unit is also equipped with a Pulse-Pure non-chemical water treatment system with a Integrated controller. Pulse~Pure® from EVAPCO uses pulsed electric field technology to treat your water without chemicals.

The capacity is based on a condensing temperature of 43°C.

This Evapco was delivered without silencers.

*All components of this used condenser will be tested on adequate

functionality, leak-free condition (electro engines), condensing block and bearings. Choosing HOS BV means buying with warranty. We perform an industrial cleaning on demand, we can arrange your shipment.
