

Frigoscandia Midget spiral freezer

Specifications

La marque	Frigoscandia
Type	Midget spiral freezer
Capacité	400 - 600 kg/h (Chicken parts)
Réfrigérant	Freon
Tailles	Container: 5800x3050x2700 mm (LxWxH)
Capacity per hour examples:	400 - 600 kg/h (Chicken parts)
Maximum product height	70 mm
Tiers	13
height infeed / outfeed	Infeed: 650 mm Outfeed: 2200 mm
Condition	Good
Effective belt width	350 mm
Stock	1

Description

Used Frigoscandia Midget spiral freezer

Used Frigoscandia Spiral Midget Freezer - Containerized Unit

Frigoscandia Spiral Midget Freezer, installed in a containerized setup and designed for efficient freezing of poultry products. The freezer has only been in operation for approximately 10 months and was professionally dismantled and stored after use. The unit is in very good condition.

The freezer has a production capacity of approximately 400-600 kg per hour of chicken parts. It is equipped with 13 spiral tiers and a 400 mm belt width, providing compact yet efficient freezing performance.

The freezer is housed in a container with overall dimensions of 5800×3050×2700 mm (L×W×H), making it suitable for modular or mobile installations.

The system is supplied complete with a Bitzer semi-hermetic screw compressor skid, including:

1 × Bitzer HSN 6261-50 screw compressor

1 × Bitzer HSN 6461-50 screw compressor

Control cabinets fitted with an E150 controller

Danfoss VLT 5000 frequency drive

This unit represents an excellent opportunity for processors seeking a compact, high-quality spiral freezer solution with reliable refrigeration components and minimal operating hours.

*Why choose for HOS BV? We're not only the largest used refrigeration specialist in Europe, but also, we solely deliver our orders after performing an extensive test and an industrial cleaning. If requested, we are happy to arrange your logistics.
