Description

Used Trane RTUB 214

Used Trane RTUB 214 air-cooled split chiller on R134A. Complete with 2 Trane CHHN060T semi-hermetic screw compressors, shell and tube evaporator, pressure and safety switches/gauges, oil separators and a control cabinet with a Trane adaptive controller.

*All components of this used chiller will be tested on adequate performance, leak free condition (condensing blocks), compressors, fans, control panel, and so forth). Choosing HOSBV means buying with warranty. We perform an industrial cleaning. *If requested we are happy to arrange your shipment.
