

## Grasso DD-1(F)BB

### Specifications

|                          |                                                          |
|--------------------------|----------------------------------------------------------|
| Marka                    | Grasso                                                   |
| Typ                      | DD-1(F)BB                                                |
| Typ produktu             | Air Cooled Chiller (split-unit)                          |
| Ogólna wydajność w kW    | 460*                                                     |
| Czynnik chłodzący        | NH 3 (ammonia)                                           |
| Typ czynnika chłodzącego | R717                                                     |
| Rozmiary                 | 3400x1800x2500 mm<br>(LxWxH)                             |
| Uwagi                    | *Capacity based on NH3<br>0/+35°C // Run time:<br>82344h |
| Więcej informacji?       | Please refer to the pdf document below                   |
| Stock                    | 1                                                        |

### Description

#### Used Grasso DD-1(F)BB

This used GEA Grasso DD-1(F)BB Duo compressor has 1x DC-1 & 1x DR-D26S-28 Grasso compressors with Danfoss frequency converter, uses refrigerant NH3, 2x Leroy Somer LS280SP-1 Electromotor 75 kW at 2970 RPM, Also incl. the electric cabinet with control display and a Runtime of 82344h, cooled by 2x Helpman condensers
