## Specifications

|                            |                              |
|----------------------------|------------------------------|
| Производитель              | Daikin                       |
| Тип                        | EWAQ080DAYN                  |
| Тип продукта               | Air Cooled Chiller           |
| кВт                        | 80                           |
| Мощность, тонн             | 22,74                        |
| Хладагент                  | Freon                        |
| Тип хладагента             | R-410A                       |
| Liquid buffer tank         | ✓                            |
| Pump                       | ✓                            |
| Масса                      | 1.350 kg                     |
| Sizes                      | 2900x2010x2390 mm<br>(LxWxH) |
| Compressor(s) type & model | 2x SJ180B4ABD                |
| Display                    | Daikin                       |
| Number of fans             | 4                            |
| Fan specifications         | 800 rpm                      |
| Stock                      | 1                            |

## Description

### Used Daikin EWAQ080DAYN

Used Daikin EWAQ080DAYN air cooled waterchiller complete with 2x Danfoss scroll SJ180B4ABD compressors. Brased plate heat exchanger with a waterflow of 229 l/min. Condenser with 4 fans and nominal airflow of 780 m<sup>3</sup>/min. Single Grundfos water pump 50-240 A-F-A-BAQE and expansion vessel 35 ltr. Control panel with Siemens Mircromaster 420 frequently regulator and Daikin PCASO controller. \*All components of this used chiller will be tested on adequate performance, leak free condition (condensing blocks), compressors, fans, control panel, and so forth). Choosing HOSBV means buying with warranty. We perform an industrial cleaning. \*If requested we are happy to arrange your shipment.
