Description

Used Condenser

New RVS drycooler. We can deliver this drycooler with a suitable fan. The current condenser will be converted into a drycooler and the appropriate flanges will be installed. The drycooler has a capacity of 8,2kW with a medium inlet temperature of 40°C and an outlet temperature of 35°C.

*All components of this used condenser will be tested on adequate functionality, leak-free condition (electro engines), condensing block, and bearings. Choosing HOSBV means buying with warranty. We perform an industrial cleaning. on demand, we can arrange your shipment.
